

VISION

To be an AMS accredited school that embraces the whole child in learning and life: a community of learners forged by the innate possibilities of the child.

MISSION

To provide a Montessori learning environment that reveals each child's innate love of learning and prepares all children to thrive in a complex world. As a child-centered, diverse school, we are dedicated to creating a community that instills peace, courtesy, grace and respect while inspiring children from three to grade six to develop higher-order thinking skills and leadership capacity. Encouraging academic excellence and student success, the Indiana College and Career Standards serve as a springboard for our Montessori Implementation.

In partnership with students, families and our community, the South Bend Community School Corporation provides the respect, encouragement and support every student needs to attain the knowledge and skills necessary for post-secondary success.
